

Til Medlemmerne af det nationale kontaktforum vedrørende radioaktivt affald i Danmark

Dagsorden til 11. møde i det nationale kontaktforum vedrørende radioaktivt affald i Danmark

Tid: Torsdag den 6. februar 2020 kl. 13.00-16.00

Sted: Uddannelses- og Forskningsministeriet, Bredgade 43, 1260 København K, lokale B (stuen). Ankomst meldes i receptionen i Bredgade 43.

Forslag til dagsorden:

1. Præsentationsrunde
2. Gennemgang af dagsorden med henblik på eventuelle tilføjelser
3. Oplæg om World Nuclear Waste Report og erfaringer med geologisk deponering i Schweiz v/ Marcos Buser, Institut für nachhaltige Abfallwirtschaft INA GmbH (Zürich) (bilag 1)
4. Pause kl. 14.30-15.00
5. Status for geologiske undersøgelser v/ GEUS
6. Evt.

Kort CV for Marcos Buser:

MARCOS BUSER, born 1949, is a geologist and social scientist who has been working in the field of nuclear energy and the disposal of chemotoxic hazardous waste for over 40 years. He managed large waste projects in Switzerland and neighboring countries and worked closely with universities, research institutes, international institutions, government agencies and private engineering firms. Buser was chairman and/or member of expert commissions, such as the EKRA Expert Commission for the Swiss Repository Concept (1999-2002), the Federal Commission for Nuclear Safety (2008-2012) or several expert commissions in the field of the remediation of industrial landfills. He was chairman of the control authority (2000-2013/2014) of the International Research Laboratory Mont Terri for High Level Radioactive Waste and was involved in projects in the field of underground storage/disposal of hazardous chemical-toxic waste in former mines.
